### Misako's note:

What do you think is the most popular manga outfit to draw? It's a school outfit! You can transform your uniform or everyday clothes into something fun and kawaii!

## Manga School Outfit Examples

I'll show three different outfits here.  
A sailor uniform is a must-draw school uniform!  
Let's find out which one is your favorite to draw.

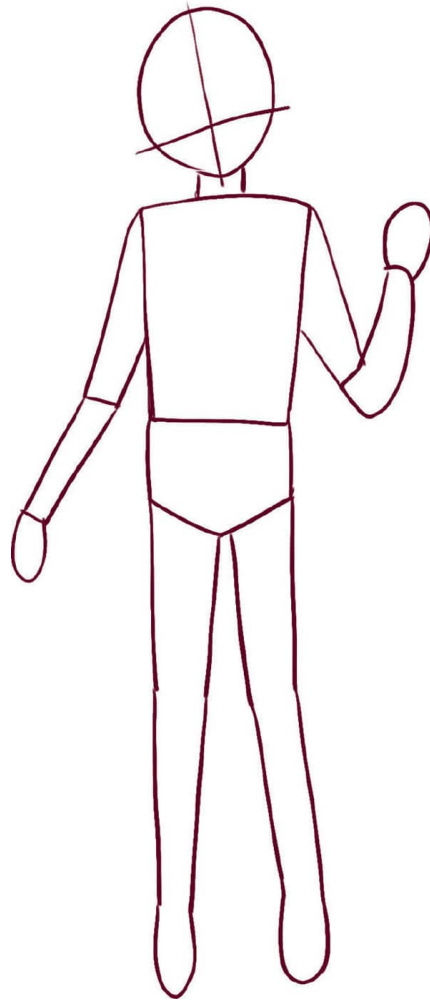

Scan for a video tutorial

**V** Start drawing guidelines for the face, upper body, and legs. You can draw lightly.

**2**

The shape of the sailor colors is like a pizza slice.

**3** Then you draw a scarf or ribbon. A scarf is a classic style. Don't forget to add fabric wrinkle lines.

**4** Draw the sleeves and the top of the uniform. Make sure it's bigger than the guidelines. Then add fabric wrinkle lines.

**5** Finish drawing the arms and hands.

**6** Draw a pleated skirt. The shape of the skirt is like an open umbrella.
